Company Profile

About Us

Associated Consulting Engineers Int'l - Jordan is a Consulting Engineering Firm, established in 1981 and registered as a Limited Liability shareholding company with the Ministry of Industry and Trade. ACE provides a consistent quality of services through the implementation of a program of quality management, which confirms to the International Standard Organization ISO 9001:2015.

ACE is a professional firm staffed and organized to provide multidisciplinary architectural and engineering consulting services. To-date, the firm has to its credit the undertaking of a variety of multi-disciplinary projects of varying sizes, nature and complexity. This qualified the Firm to be classified by the Jordan Association of Engineers to undertake Design and supervision works in the following fields:

Buildings Projects

Roads & Infrastructure Projects

Traffic Engineering

High-Rise Buildings

Topographical Survey

Bridges Projects

During the past 39 years, ACE-Jordan has developed to become one of the leading Consulting Firms in Jordan, with a Staff of more than (120) Professional Engineers. With its close ties to its affiliate international Firm, ACE-Int'l, ACE-Jordan has been able to support its base of professionals and receive the back-up necessary to augment

Its available local resources and capabilities, whenever needed, to meet the requirements and demands of specialized/large projects. The experience of ACE staff in various disciplines enables the firm to handle complex projects and to offer a wide scope of services specifically tailored to each project's requirements.

Mission & Vision

Khaled Khashman
Chairman

Jawdat Yaghmour
General Manager

ACE is realizing this Vision through ongoing investment in the development of its people in leading edge technology and capabilities.

Our **Mission** is to provide Multi-Disciplinary consultancy services across Jordan, the Middle East, and Gulf Region for both the public and Private sectors.

Our **Vision** is to be the top leading firm in providing A&E consultancy services in design, supervision, construction management, and pre-Engineering Studies Locally and Globally.

ACE Staff

ACE-Jordan's Staff, of over 120 personnel, includes a core of more than 100 professional engineers and architects in various disciplines. Their expertise enables the firm to offer clients a wide scope of services specifically tailored to each project and its particular conditions. They are qualified and well experienced in all aspects of project planning, design and construction management/supervision services and are familiar with international standards as well as the Local Regulatory Codes prevailing in Jordan.

Computer technology provides the staff with an analytical information and documentation base and an effective tool for most technical, managerial, and support functions. The specialized training of its professionals and the depth of their technical experience is reflected in the firm's accomplishments in development projects over the past 39 years. Additionally, ACE-Jordan has a sizable pool of qualified and experienced professionals of its affiliate ACE-Athens, which it can draw upon enabling it to develop and expand its capabilities.
